## OGEC-1400 Series

4 Port Fiber Switch 10/100/1000 RJ45 to 1 SFP Port

## Introduction

The OGEC-1400 series are $4 \times 10 / 100 / 1000$ Base-T to 1000Base- $X$ non-managed Industrial Switch that enables you to extend your network to longer distances. This series not only increases the speed of your network server, but also make Gigabit to the desktop/wall mount a reality. Generally, OGEC-1400 series is a highperformance solution for your network.

OGEC-1400 series is available in types of stand-alone box type and module/card type to meet versatile field installation demands like on desktop, wall-mount and rackmount. A 19-inch chassis can be used to accommodate up to 16 pieces of OGEC-
 1400 modules as an economic installation to save space in the control center. All OGEC-1400 models are subjected to a $100 \%$ burn-in test, and they support an operating temperature range of 0 to $75^{\circ} \mathrm{C}$.

## Features

- Fixed Full-Duplex on Fiber
- Auto-MDI/MDIX on copper port
- Plug and Play, no configuration required
- Hot Swappable
